film panel after scrolling down

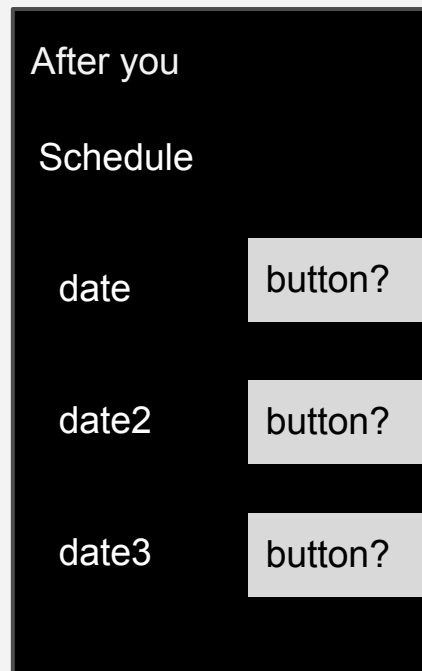

search function, possible sorting by
date? or alphabetic order only?

Panoramic view for FilmDetail as well

the user would be able to access the schedule right away to add the movie by simply swiping.

Button add to calendar with appropriate information

possibility of sharing that you are going on facebook ?
(google+ tweet as well ?)

like (facebook
google +) tweet ?

Event and forum would have a similar looks possibly.
